MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Office of Personnel Report - Week Ending 20 December 1968

1. Staffing Complement: Our study of the proposed reorganization of the Office of Finance continues. The majority of the grade problems have been resolved and it appears, at this time, that there will be little or no increase in average grade as a result of this reorganization. Completion in early January is expected.

The new staffing complement for the Office of Computer Services will be issued as soon as we resolve differences concerning their training and administrative positions.

2. Cooperative Education and Summer Intern Programs: Mr. [REDACTED] has been working with National Photographic Interpretation Center officials to develop a firm set of requirements for their Co-op and Summer Intern Programs. A policy paper and recruitment objectives have been developed (copy attached) which are particularly helpful as this office has the largest and most varied of such programs.

### NPIC COOPERATIVE EDUCATION PROGRAM

The Cooperative Education Program (Co-op) of NPIC is designed to identify and aid in the development of talented college students who are interested in national security affairs and who have potential to meet long-range recruitment requirements of the Center. There are two categories of participating students as determined by the programs of individual colleges and universities. They are the Cooperative Student who alternates semesters of study and work, and the Summer Intern who is available to work only during the summer months.

It is not intended that Co-op will meet all of the professional personnel needs of NPIC since many of these are too urgent or specialized for Co-op Staffing. The Program is focused on those critical areas where there is a shortage of experienced personnel and a continuing personnel requirement.

Applicants are interviewed and screened by the Training Branch against requirements established by the major components of the Center who have final selection authority. Recruitment objectives are based upon total positions in each occupation and anticipated attrition. (Current summary of projected requirements is attached.) The respective components are responsible for developing a training plan for each student in coordination with the Training Branch, for providing meaningful on-the-job work experience and for careful evaluation of the individuals performance, attitude and growth.

Co-op provides a means to attract and develop potential career employees who have the best possible background for Center positions. There is ample opportunity for in depth evaluation of students prior to the final staff employment decision. At the same time, participants are gaining valuable experience and can be provided assistance in selecting valuable courses of study.

Due to the nature of this Program, the investment in training and experience for each student, and the relationships with participating schools, it is imperative that every effort be made to offer staff employment to those individuals who successfully complete their planned training.

Extract from Career Service Board Meeting 22 November 1968 -

#### 2. Review of Cooperative Education Program.

The Board reviewed the attached (above) policy statement and recruitment objectives for the NPIC Cooperative Education Program and recommends that they be approved.

At Miami-Dade Junior College discussions were held with college officials concerning co-oping with their science and pre-engineering students who will transfer to the University of South Florida or the University of Florida after two years. These students would continue with us, of course, after their transfer to USF or UF from Miami-Dade.

A group meeting was conducted at South Florida with selected students and members of the Co-op Department faculty. Four students were interviewed with one being furnished with our application forms.

SUBJECT : Office of Personnel Report - Week Ending 15 November 1968

1. Office of Finance Staffing Complement: A new staffing complement proposal for the Office of Finance has been received and is being reviewed. It appears to involve a rather extensive reorganization. This proposal will be discussed with Office of Finance officials this week.

2. Co op Program: Mr. [REDACTED] visited the Rochester Institute of Technology last week with representatives of National Photographic Interpretation Center, Foreign Missile and Space Analysis Center, and Imagery Analysis Service. They talked to a group of 23 students and then conducted 20 individual interviews. Ten of the 20 were selected to receive Personal History Statements.

3. Civil Service Commission Liaison: Arrangements were made last week for us to have access to the list of management intern eligibles who have not received offers of employment. CSC officials have informed us that they added to this register the 200 foreign service eligibles whom State was unable to appoint.

4. Air Force Improvements in Personnel Management: Master Sergeant Paul [REDACTED] Mobilization and Military Personnel Division, is attending a two week course on Personnel Work Center Operations at Keesler Air Force Base, Biloxi, Mississippi. Classes began on 12 November 1968. The USAF is moving into a second phase of computer oriented, personnel management. By expanding the data base (primarily information on enlisted personnel); storing the information in centrally located computers, Bolling Air Force Base in this case;

and providing a remote inquiry capability, a great deal of manual records maintenance will be eliminated. The remote keyboard device is scheduled for installation in the Air Force Branch in May 1969. The expanded data base mentioned requires six weeks of effort to code the information. This coding project will be completed about 27 December 1968. While we do not anticipate any manpower savings as a result of this improvement, we will be able to receive information on a more expeditious basis.

5. Reserve Affairs: Brigadier General William A. Knowlton, Office, Chief of Staff, United States Army, will be the guest speaker for the JMRTC meeting today. He will speak on the subject of "Challenge to Power." General Knowlton was the Assistant Division Commander of the Ninth Infantry Division in Vietnam prior to his present assignment as Secretary to the General Staff.

6. Honor Awards: Twenty-one honor award cases were reviewed and approved at the HMAS meeting last week. Nineteen of these cases were related to the Mid East Crisis of 1967.

7. Fund Drive: CFC totals reached \$231,878.00 or 106.5 percent of our goal. Total payroll deductions were \$138,746.46. EAF totals reached \$14,719.35 and PEAS totals reached \$12,685.92.
